Product description

• With an immense 22.30 m working height the PB S225-23DS 4×4 is predestinated for installation, mounting and maintenance works on construction sites or in industrial areas

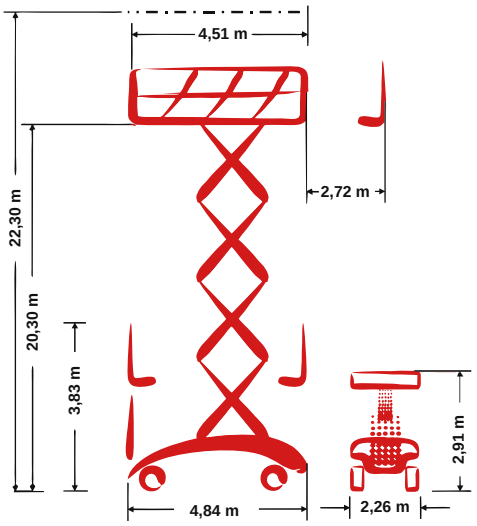

• For working at high altitudes the device has with 750 kg lift capacity the necessary power reserves on the entire max. 7.23 m x 2.21 m platform

• The 4-wheel-drive and the standard differential lock of the scissor ensures sufficient propulsion and the necessary balance in use at hard drivable, uneven grounds

• A fully automatic supports system levels the machine via push of the button and within seconds on uneven ground, thus provides a huge plus of stability and security

• The Hatz-Diesel engine is very powerful and allows long working cycles
