Product description

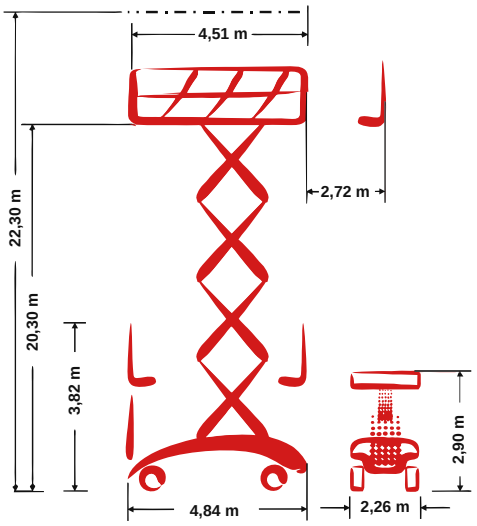

• With immense 22.30 m working height and a powerful, emission-free electro-hydraulic drive the PB S225-23ES 4×4 is predestinated for installation, assembly and maintenance works on construction sites or in industrial areas indoor and outdoor

• The Mega-Deck with max. 7,23 m x 2,21 m offers enough workspace and thanks to its strong 750 kg lift capacity enough „power“ for the take-away of heavy materials and tools

• The 4-wheel-drive and the standard differential lock of the scissor ensures sufficient propulsion and the necessary balance in use at hard drivable, uneven grounds

• A fully automatic supports system levels the machine via push of the button and within seconds on uneven ground, thus provides a huge plus of stability and security
